MN RESIDENTIAL DUCTED AIR SOURCE HEAT PUMP REBATE
TERMS AND CONDITIONS

EQUIPMENT

The qualifying equipment must be installed in a MINNESOTA home served with natural gas from CenterPoint Energy and with a high-efficiency natural gas furnace between January 1 and December 31, 2026.

Equipment must be new and listed on the current AHRI (Air Conditioning, Heating and Refrigeration Institute) website. Review AHRI criteria on page 2 of this application. See website ahridirectory.org.

The equipment cannot be used, refurbished, or installed under warranty replacement.

CenterPoint Energy reserves the right to inspect the installed equipment.

Rebate	Type of building	HSPF2 as rated in the current AHRI directory	NEW installation of ducted air source heat pump
$1,100	Existing home	7.8 or higher	Installed in a home with a natural gas furnace with an AFUE of 92% or higher
$400	New construction		Installed with a new natural gas furnace that is 92% AFUE or higher

PURCHASER/REBATE RECEIPIENT

Residential New Construction

Building contractors should negotiate with home buyers to determine who will receive the rebate.

Rebate Notifications

Clearly enter the email address in the purchaser email address field if your customer would like to receive system generated email notifications about their rebate submission status.

Rebate Recipient

Dealers and retailers are not eligible to receive their customer's rebate.

APPLICATION

CenterPoint Energy Gas Account Number

The gas account must be active for the installation address in order for the rebate to be processed.

Proof of Purchase and Installation

Confirm that the dated sales invoice from the heating company to the purchaser includes the required information:

- The details of the ducted air source heat pump that was purchased, including the AHRI number, the switchover temperature that was programmed for the new ASHP, the brand and complete model number of the outdoor condenser and indoor unit (evaporator/or air-handler) and heating company information. The invoice must match the information on the application. A proposal or estimate are not acceptable forms for proof of purchase. Additional documentation for the ducted air source heat pump or furnace may be requested from CenterPoint Energy.
- **IMPORTANT**: Obtain a revised invoice if it does not contain all the required information.

Rebate Deadline

Completed application and proof of purchase and installation must be submitted by the program deadline of December 31st, 2026, for equipment installed in 2026. In addition, paper applications must be post-marked by the postal service by 12/31/26. We are unable to receive/process rebate requests for equipment installed prior to January 1, 2026.

PROCESSING

New Construction rebates are put on a 60 day hold prior to processing for High Efficiency Home program verification. If the home completed the High Efficiency Home program, no rebate will be paid.

CenterPoint Energy is not responsible if the dealer does not provide accurate information about the rebate amount or equipment eligibility. Rebate qualifications and amounts are subject to change. CenterPoint Energy Conservation Improvement Program (CIP) rebate programs can be cancelled or changed at any time.

REBATE

If all program requirements are met and the rebate is processed, the purchaser will receive a rebate check in the mail. Checks are mailed in an envelope from Houston, TX and expire 90 days from the date the check was issued. Please allow 8 weeks for rebate processing from the time that CenterPoint Energy receives the completed application. If you have not received a notification or payment after 10 weeks, you may email RebateCenter@CenterPointEnergy.com or call 612-399-1545.

MN RESIDENTIAL DUCTED AIR SOURCE HEAT PUMP REBATE
TERMS AND CONDITIONS CONT.

BEFORE YOU COMPLETE THE REBATE APPLICATION

1. Have the switchover temperature that was set/programmed by the technician when the equipment was installed, available to enter in the rebate application.
2. Confirm your invoice has all the required information listed in the Proof of Purchase and Installation.
3. Determine the AHRI certificate number for the ducted air source heat pump with the following criteria:

   Select Product Type: Residential Heat Pumps with AHRI Rating Conditions

   Then enter the following information listed in the Quick Search Criteria
   - Select Manufacturer Type **SYSTEMS or COIL (mix-match)** from the dropdown list
   - Sold in USA
   - Ratings Calculated By: AHRI 210/240-2023 ratings
   - Minimum HSPF2 (Region IV) 7.8 or higher

   Next enter the equipment information in the AHRI Quick Search Criteria
   - Condenser (outdoor unit brand and model number)
   - Evaporator Coil (indoor unit brand and model number)
   - Furnace Model Number

   Once you have entered all of the information listed in the AHRI search criteria, locate the AHRI number for the ducted ASHP.
   - Document the AHRI number if the ducted air source heat pump meets the HSPF2 rating of 7.8 or higher
