2026 AIR SEALING AND INSULATION REBATE APPLICATION

REBATE ELIGIBILITY

To qualify for a CenterPoint Energy rebate, your upgrade project must be completed by a Rebate Eligible Installer.

A list of Rebate Eligible Installers is available at www.centerpointenergy.com/insulationrebate. Upgrade work not completed by a Rebate Eligible Installer will not qualify for a rebate.

This rebate program applies only to Minnesota homes heated with natural gas from CenterPoint Energy. Rental properties are eligible to participate in this rebate program; however, it is the responsibility of the property owner to authorize all work to be performed on the home.

To qualify for a rebate, CenterPoint Energy customers must hire a Rebate Eligible Installer, complete a qualifying upgrade project, and submit completed rebate application documents.

Rebates will be issued only for measures installed between January 1, 2026 and December 31, 2026. Rebate qualifications and amounts are subject to change. Completed rebate forms will be processed in the order in which they are received. Rebate funds are limited.

Rebates will not be paid if funds are depleted prior to December 31, 2026.

CenterPoint Energy Conservation Improvement Program (CIP) rebate programs may be cancelled or changed at any time.

CenterPoint Energy issues cash rebates in the form of checks, not utility bill credits.

QUALIFYING UPGRADE MEASURES

To qualify for a CenterPoint Energy rebate, your upgrade project must be completed by a Rebate Eligible Installer. Rebate excludes upgrades to new construction, garages, 3-season rooms, basement, crawl spaces, sheds, and workshops. All upgrade measures must be installed to the manufacturer's specifications and must meet all federal, state and local code requirements.

Qualifying Attic Weatherization Projects:

- Must include air sealing of all accessible attic air leaks including attic access panel, plumbing and electric bypasses, wall top plates, recessed light fixtures and other attic penetrations. No rebate will be issued for attic upgrade projects that do not include sealing of all accessible attic air leaks.
- May also include attic insulation improved from a pre-existing of R-30 or lower to a post of R-49 or higher. No rebate will be issued for attic-insulation-only upgrade projects.

Qualifying Wall Insulation Projects:

- Only include homes with substantial areas of inadequately insulated (R-5 or lower pre-existing) exterior walls adjoining heated/conditioned areas.
- Must include wall insulation improved from a pre-existing R-5 or lower to a post R-11 or higher through all areas of inadequately insulated exterior wall adjoining heated/conditioned areas.
- Attic knee walls are excluded from this portion of rebate program.

Qualifying Rim Joist Insulation Projects:

- Must be completed in combination with either a Qualifying Attic Weatherization Project or a Qualifying Wall Insulation Project (rebate not available on a standalone basis).
- Must improve at least 50% of the total rim joist area.
- Must improve rim joist insulation from no existing insulation to at least R-11.

REBATE AMOUNT

For attic air sealing, the rebate will equal \$750. For attic air sealing and qualifying attic insulation the rebate will equal \$1,300. No rebate will be issued for attic upgrade projects that do not include sealing of all accessible attic air leaks.

For qualifying wall insulation, the rebate will equal \$1,500.

For qualifying rim joist insulation the rebate will equal \$200.

No rebate will be issued for attic-insulation-only upgrade projects.

No rebate will be issued for rim-joist-insulation-only upgrade projects.

APPLICATION REQUIREMENTS

Two documents must be submitted to apply for this rebate: 1) 2026 Air Sealing and Insulation Rebate Application completed and signed by Customer and Installer Crew Leader, and 2) Rebate Eligible Installer's itemized invoice.

Required documents must be postmarked by December 31, 2026.

Only qualifying material and labor costs should be included on the 2026 Air Sealing and Insulation Rebate Application. This program ends December 31, 2026.

It is the responsibility of Customer and Rebate Eligible Installer to ensure that all required application documentation has been filled out completely and accurately, and that the documents have been submitted in a timely manner.

CenterPoint Energy reserves the right to verify installed air sealing and insulation measures.

APPLICATION CHECKLIST

- ☐ 2026 Air Sealing and Insulation Rebate Application signed by Customer and Installer Crew Leader
- ☐ Copy of Rebate Eligible Installer's itemized invoice
- ☐ CenterPoint Energy account number
